## Go with us

- We have 20+ years of experience in various industries.
- We participate in the development of ISO standards and have information earlier than our competitors.
- We share values in the team: precision, efficiency, lean approach to documentation
- We really enjoy our work!

**We are looking forward to our cooperation!!**

Clients are at the center  
of our attention. Always.

A reliable and professional partner for  
implementing and improving unique  
and sustainable management systems  
that help clients in their daily operations  
and strengthen their business and  
interpersonal relationships.

### **Oliver Kunz, CEO | Euromedical**

We have worked with S-cope on getting the ISO 9001:2015 certification and experienced a great deal of support during all stages when it came to the initial analysis of the company and its ecosystem.

### **Albert Van Veen Genera, CEO | FastID**

Amazing cooperation, it felt like Veronika was part of team and our future for us. She did excellent work to make us ready for a successful certification and so much more for us as a company. We could have not done it without her, she is a big asset and recommendation for every organisation!
